Re: U. S.-China Air Services
Docket OST-99-5539 - 32

Dear Ms. Walker:

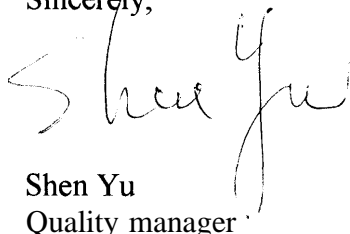

Rockwell Collins(Shanghai) supports Federal Express' application for additional route rights to China. We rely on FedEx for fast, dependable, time-definite express service to China and Asia.

Rockwell Collins(Shanghai) is the aircraft parts supplier in China. We send most of our repair parts to US, have them fixed then send back to our customers in China. As you may know, almost all aircraft parts are very expensive and need to be taking special care. Also, due to the nature of our business, everything need to be shipped and fixed in a very short period of time. We use FedEx for almost all of our shipments between China and US. FedEx is Playing an extremely important role in our daily operation.

Granting FedEx authority to increase its China service will allow Rockwell Collins(Shanghai) to be more competitive and increase our market share in China. This also means more US jobs and more US business.

Accordingly, we urge the Department of Transportation to grant FedEx's application. Rockwell Collins(Shanghai) appreciates the Department's consideration of our views on this very important matter.

Sincerely,

Shen Yu
Quality manager
